### Product Description

The **Bleached Striped Cotton** is designed for use in all basic cotton products. It is a basic and essential product that can be used in medical and personal hygiene goods as well as all other areas in which cotton is required. Due to its high absorbency, the **Bleached Striped Cotton** is particularly used in products such as sanitary napkins and diapers, which consist of multiple layers and which require extra absorbency.

- Natural cotton fibers
  - Long fibers
  - High absorbency and liquid retention capacity
- 
- Safe
  - Increased volume
-
