Product Description

The **Bleached Combed Cotton Crispy** is manufactured in accordance with European Pharmacopoeia, US Pharmacopoeia and British Pharmacopoeia. It is a basic and essential product that can be used in medical, cosmetic and nonwoven goods as well as all other areas in which cotton is required. Due to its high resistance and firmness, the **Bleached Combed Cotton Crispy** is particularly used in areas such as sliver hoisting, cotton bud production and nonwoven fabric production, which require durable cotton that does not break off.

- High-quality natural cotton fibers
 - Extraordinary whiteness
 - High elasticity capacity
 - Safe
-
- Pure
 - Extra durable
 - Greater elasticity and ability not to break
-
